

M.A.S.K. going to Bonne Terre!

Bonne Terre Mines

MASK - (Michigan African-American Scuba Klub) will be heading back to Bonne Terre Mines to dive on March 20th and the 21st. Come join us and have some fun. So plan to do three dives on Saturday and one big dive with all the divers on Sunday morning. Many folks only dive one or two dives, be careful, they don't give refunds on the dives. This is underground, the water is crystal clear - 100ft vis or more. All fresh water, no currents, no surges, no waves. Open Water Certification is welcome or above. We usually have a tailgating party hosted by the Windy City Seals. Michele Dowdy has all the details. Her email address is micheledowdy@yahoo.com or call her at 773 375 2330.

We all get together on Saturday night for dinner at Shamrocks - good food and good conversation.

It is out of the elements - no snow, rain, etc. The water temperature is 58 and the air temperature is 62 degrees all year round. One will need a good wet suit - 6 mil or so. Tanks are included with dives. Everything else you must bring or rent it from them. Bonne Terre is located about 60 miles south of St. Louis Mo. Come join us.

For more information, please contact Vernon Beard at: vbeardsr@yahoo.com or 313-719-5114.

Bonne Terre Mines website is: <http://2dive.com/>

To register contact Bonne Terre Mines at: 1-888 The Dive. Let them know that you will be diving with us.

Some of us will be staying in the Bunk house which is right at the dive site (mine). This is pretty basic - no TV, just beds, bathroom etc. However, there are hotels located in the area. Please RSVP if you plan on coming. Take care,

**Vernon
